

## Ratepayers Say "No"; Hail Suppression Out For '58?

A hail suppression plebiscite which met with a severe reversal early in 1956, fell to the same fate in a vote carried out in various sections of the Municipal District of Mountain View last Saturday.

When the unofficial count was taken there were 375 in favor and 250 against; this constitutes a 51% majority in favor — 66 and 2/3rds were required to pass the plebiscite. Only 40% per cent of the eligible voters exercised their franchise.

Latest word received from the local hail suppression association gives the impression that a second plebiscite may be held in the east area, where the following tabulation of the plebiscite shows that the majority in that area were in favor of extending the plan for another season.

Again this is an unofficial listing, but it can't be far out:

## Writer Goes For Hail Suppression

Didsbury, 25th Feb., 1958

The Editor, The Pioneer, Didsbury Alberta.

Dear Sir:

In last week's Pioneer you ran a rather amusing but very confused letter against hail suppression written by a farmer (?) from the east.

Unfortunately, this letter seems to have had some influence on a certain type of people in the district, as the vote for hail suppression did not have the required majority.

These people, and there are many of them, seem to think that it is an ungodly act to tamper with natural catastrophes, as they are inflicted upon us by a higher authority because we are wicked or because our faith needs to be tested.

Now let me ask you this: Alberta gets much more hail than any other province in Canada or state in U.S. Are you going to stand there and tell me that we in Alberta are more wicked than the Ontarians, or the Manitobans, or heaven forbid, the Americans?

Impossible! Not with a government that has been run by a preacher for a quarter of a century, and composed mostly of ex-preachers and churchmen. Look at our towns! There is a church for every hundred people in every one of them. How could we be more wicked with all these deterrents to wickedness.

And yet we must stand in a hail storm and thank the Lord for our lumps. Fiddlesticks!

The human race was put on this earth equipped with a brain with which to look after itself. Some brains of course seem to be more advanced than others. Nevertheless, when there are catastrophic floods, the people build dams and dykes to control them. Where it is too dry, they irrigate. Everywhere we put up lightning rods to save our buildings.

Why, then, in the name of all that's holy, should we treat hail any differently? If there is a slightest chance of making it less severe, must we be a bunch of idiots and turn down that chance?

(Signed) CYRIL BROCKE

### BOB BANKIER HAS THE SOLUTION

Tipsey pigeons are easy to trap. So says Bob Bankier of Didsbury who has offered City Council a novel solution to the pigeon problem.

His recipe:

"Soak dried peas in Scotch whisky and cook over-night."

The pigeons love the mash. Once introduced the birds can be rounded up with ease. "The method was used at the town hall of Dundee, Scotland and it worked beautifully."

Calgary City Council this week instructed city commissioners to find a solution - any solution - to the pigeon nuisance.

Mr. Bankier added: "Those who like roast pigeon still find Scotch whisky improves the flavor."

The deceased first came to the Harmanist district in 1904. He was an active worker for the Red Cross and a long-time member of the St. George's Anglican church at Harmanist.

## Incorporated Society For Rest Room

DIDSBURY CUB PACK VERY ACTIVE !!!

Number 1 Didsbury Cub Pack held its first investiture of the year Friday evening, Feb. 14, when a number of parents were present.

Jeremy Miller and Leslie Brace were invested as Cubs by Akela; following this Senior Sixer Jack Miller and Sikers Terry Anderson and Douglas Allan were presented with their first stars.

Stanley Shanon, Murray Morrison and Douglas Allan received two year service stars, and Devin Rodway received his first year star. Following the ceremonies games were played and lunch was served to those present.

Since the meeting time has been changed to Friday nights, several assistants have volunteered their help. Assistant Cubmasters are Fred Rodway, Ken Gillette and Trev Morgan with the extra help of Larry Olliffe. There are now 34 Cubs in the pack, with the transfer of Garry and Billy Blip from the Olds pack.

The boys are busy Saturday afternoon practicing for the Acme Ice Stampede to be held in Calgary March 21, and also the Mountain View Ice Carnival to be held in Olds on April 5th. In addition to this they once again have their hockey teams. On Saturday afternoon, March 1st, the boys hope to be hosts to the Westcott team in the arena.

As mentioned elsewhere in this issue, papers have been forwarded to the provincial government to get authority to make the rest room deal into an incorporated society. The name chosen is Didsbury and District Rest Room Society.

When the necessary documents are returned a meeting will be called of the interested bodies, at which time a board of directors and state of officers will be elected. It is understood that at that time the title of the building will be turned over to the society. It is expected that when the red tape has been passed through the doors will open. This is expected to take place very shortly.

A list of all the organizations who will be a part of the society will be announced in these columns. The final word is received from the head men in Edmonton.

TOO LATE . . . A young lady went for a swim in a secluded spot, but neglected to take a towel with her. She had come out on the bank and was allowing nature's balmy breezes to dry her, when she happened to hear a rustling in some bushes near by. "Who's there?" she asked.

A rather high-pitched voice replied: "Willie."

Said the girl: "How old are you, Willie?"

And the wee small voice came back: "Seventy-nine, darn it!"

Maurice 'Rocket' Richard of Canadiens was named winner of the Lou Marsh Memorial Trophy today as outstanding Canadian athlete of 1957. Richard will return to action after three months layoff because of injury.

# A tall order... FOR ALBERTA FARMERS

1,250,000 lbs. of Beef

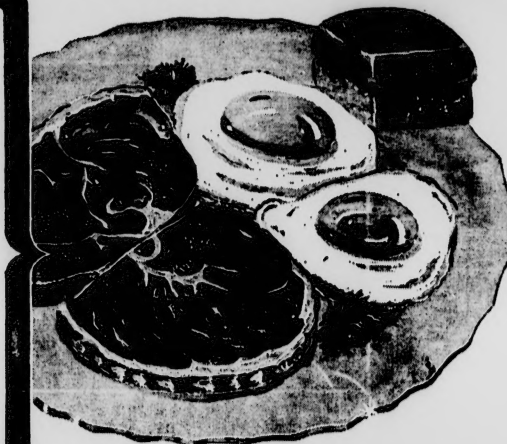

625,000 lbs. of Butter

1,000,000 Loaves of Bread

2,500,000 Quarts of Milk

1,350,000 lbs. of Vegetables

The above estimates are calculated on a basis of 1 Million Tourists visiting Alberta for average 5 day period and consuming:  
 4 ounces of Beef  
 2 ounces of Butter  
 1 fifth of a loaf of Bread  
 one-half pint of Milk  
 4 ounces of Vegetables DAILY.

## 3,000,000 SERVINGS OF HAM AND EGGS...

That's what a million visitors a year to Alberta could do towards consuming this province's farm products. Even staying their present average of five days a year in the province, a million tourists would spend \$25,000,000 in retail and department stores, \$17,000,000 in hotel and resort accommodation, \$9,000,000 on entertainment and recreation, \$5,000,000 on refreshments and roadside purchases, \$12,000,000 in restaurants and food stores, \$12,000,000 in service stations and garages (including over \$1,000,000 paid in gasoline taxes), \$7,000,000 on transportation and \$3,000,000 on novelties, souvenirs and many other things.

This is only the primary distribution of tourist expenditures. These first recipients of tourist dollars would in turn go on to buy supplies, pay taxes, and employ labor and thus benefit many other parts of the Alberta economy including farming in particular.

And a million visitors annually is not an impossible goal for a province so rich in scenic attractions. But the first essential is an increasing public awareness of tourist needs.

THE  
Homemakers

By HELEN HOWARD  
District Home Economist  
Hello Homemakers -  
Add a Pinch or a Dash - For Zest  
Just a little right spice in the  
right place makes all the difference.  
Try a drop or two of almond ex-  
tract in recipes calling for peaches  
or cherries; and in chocolate pie,  
meringues, creamed chicken.  
A pinch of mace makes any good  
brown gravy taste even richer.  
Dust nutmeg or mace over spin-  
ach, green beans, sweet potatoes.  
Horseradish puts a bite in ham-  
sandwich filling, barbecue sauce;  
mashed baked beans fit for a gour-  
met.  
Add a dash of cinnamon to cream  
sauce for onions.  
Toasted sesame seeds replace  
nuts in hamlet cookies. Bring out  
flavor by toasting seeds first in a  
shallow pan at 300 degrees until  
golden; stirring constantly.  
Add mint to applesauce, fruit  
cups and especially tea leaves.  
Celery seed, in dumplings, cheese  
biscuits or sprinkled over creamed  
sea food.  
Add ground cloves to corned beef  
hash, cheese souffle and white  
sauce for fish.  
Savory pork chops: spread each  
chop with one-half teaspoon chili  
powder to one tablespoon brown  
sugar and bake in a little apple  
juice at 350 degrees for 45 minutes.  
Sage: rub a pork roast all over  
with sage and sprinkle with dry  
mustard before putting it in the  
oven to roast.

Rug and Upholstery Cleaner  
1/2 cup soap flakes  
1 quart boiling water  
2 ounces ammonia  
Dissolve soap in water. Cool and  
add ammonia. This forms a jelly.  
Vacuum the rug thoroughly to re-  
move all loose dirt. Beat a portion  
of the soap jelly to a stiff lather  
using the egg beater. Keep the  
lather over a small area with a soft  
brush using a circular motion. Be  
careful not to get the filling wet.  
Scrape off the soiled lather with a  
spatula. Remove last traces with  
warm water and then with a dry  
cloth. Keep the entire water down.  
This method is not recommended  
on rugs with a twisted pile.  
Here's an easy, inexpensive de-  
sert that will help brighten your  
dinner on wintry days.  
Chocolate Spanish Cream  
2 tablespoons gelatine  
1/2 cup sugar  
1/4 teaspoon salt  
4 tablespoons cocoa  
2 1/2 cups milk  
1 egg  
1/2 teaspoon vanilla  
Mix gelatine, sugar, salt and  
cocoa together thoroughly. Gradu-  
ally stir in the milk. Heat to boil-  
ing point and boil 1 minute, stir-  
ring frequently. Add vanilla and  
chill until thick and syrupy. Add  
slightly beaten whole egg and beat  
until light and fluffy. Unmould  
and serve with whipped or pouring  
cream.

## CREMONA NEWS

(From Our Own Correspondent)

The Sewing Circle held its bi-  
monthly meeting at the home of  
Mrs. Marion Reid last Wednesday,  
February 12th.

Mrs. Betty Gillis has opened  
"The Betty's" Beauty Salon in Cre-  
mona. Mrs. Gillis, widow of Russell  
Gillis, took her beauty course at  
the coast and is at present operat-  
ing above Holbrook's General store.  
The girls have begun practicing  
basketball. Could be, with the  
help of Mrs. Donna Maynes and  
Mrs. Gordon Reid, they may come  
up with a good team.

## GEMS OF THOUGHT

Ideas are like seeds. After years  
of lying dormant, they may sud-  
denly spread with lightning rapid-  
ity.

The ideas that benefit a man are  
seldom welcomed by him on first  
presentation.

New ideas can be good or bad,  
just the same as old ones.

Few persons have courage enough  
to appear as good as they really  
are.

True courage is like a kite: a  
contrary wind raises it higher.

## THE UNIVERSITY PROGRESSES WITH ALBERTA

The University of Alberta has seen tremendous growth since its estab-  
lishment more than 50 years ago. The beginning curriculum was just two areas  
only, science and the liberal arts, taught at Edmonton. Today every type  
of professional school is found within its scope. From the initial opening  
in Edmonton the University of Alberta has extended to other parts of the  
province. A branch in Calgary, the School of Fine Arts in Banff and the  
junior college at Lethbridge are all extensions of the University of Alberta.  
The university, its operation and expansion is another government service  
maintained for the people of Alberta. Government grants have resulted in  
the construction of fine buildings for the establishment of a wider range of  
courses available to students.

## UNIVERSITY PLANS FOR THE FUTURE

The University of Alberta continues to expand and grants from the  
Government of Alberta this year will assist in several large expansion and  
construction projects. These include a Physical Education Building, a six-  
storey addition to the Medical Building, a new building for Chemistry and  
one for Physics and Mathematics. The addition to the Medical Building will  
provide increased facilities for medicine, dentistry, pharmacy, nursing and  
physiotherapy. New university buildings are being planned on a 325 acre  
site in Calgary which was given to the university as a gift from the city.

## PROVINCIAL GRANTS TO THE UNIVERSITY OF ALBERTA

Government of Alberta grants to the University of Alberta during the  
current fiscal year total \$4,521,740. These grants cover the cost of operation  
of the university and the financing of university building projects.

University construction projects this year received a grant of \$2,170,740  
and an additional \$200,000 for furnishings.

The operational grant was \$2,225,000 which with an enrollment of  
slightly more than 5,000 pupils amounts to about \$500 per pupil attending  
the University of Alberta.

## Just For The Record . . .

Election talk is flying in all directions in any huddle we've been in lately and the story seldom changes — you're either for 'em or again 'em, the story very seldom varies. Naturally the federal campaign holds the spotlight but a lot of interest is being stirred up in municipal circles. As per usual, we are sitting on the fence. But if they were to just do it this way . . . whoops, off base again!

★ ★ ★

## Just For The Record . . .

We were crossed up a bit last week on the proposed opening date of the rest room, but we learn now that a society has been formed of interested groups and as soon as incorporation papers get the green light from the provincial government the doors will be open. It can't be too soon.

★ ★ ★

## Now We Know . . .

Ratepayers of the Municipal District of Mountain View turned thumbs down on a plan to continue hail suppression tactics in this area. Seems a shame to halt proceedings after such a short trial but, as usual, the majority rules. Had the provincial government loosened the purse strings a bit the result would undoubtedly have been much different. The ones who were paying the shot just got a bit tired of the high cost of being guinea pigs.

FROM FERTILIZED FORAGE  
\$15 MORE  
PER TON!...

Protein is essential for meat and milk production. A ton of unfertilized grass hay contains approximately 100 lbs. of protein. Application of high analysis Elephant Brand Fertilizer can double this figure to give you 200 lbs. of protein in every ton! Most protein feed supplements contain 32 per cent protein, and cost up to five cents per pound. On this basis, the increased protein content resulting from the use of Elephant Brand adds \$15 to the value of every ton of forage . . . plus extra profits from faster growth and more abundant yields!

## ONE SECOND FROM ETERNITY

"I don't know who you are, it's true, but I do know you were scared to death Sunday evening about 9 o'clock when you drove your car across the track directly in front of a speeding passenger train. It was so close that I, in the cab, could see the young girl (your sweetheart, I presume) throw her hands up in front of her face and cringe up against you in stark horror. If I were that young girl I'd pull away from you fast. You don't show very good sense, son. You probably say you love her. I wonder. Those we love we try to protect. But not you.

"Wouldn't that have been a nice present to hand her mother — a broken and battered body? And how do you think that we in the cab of that engine would feel? We are human beings, too. We have young ones waiting home for us to return. We, too, could have been killed.

"You and your girl were one second from eternity Sunday, son. I hope you read this and know it means you, and that the girl will, too. Next time you go driving around, stop and look. We don't want to hit you, but we are helpless, we cannot swerve away from our given rail.

"If I were you, son, and you, sis, I'd thank God for that split second He granted you Sunday evening.

"I said a prayer for all when I realized you were going across. Perhaps that's what saved us all.

"Now, think it over, both of you. And I'll bet you are both still shaking in your shoes. And please, for heaven's sake, don't try it again!"

## WEDDINGS

## SPENCE — YOUNG

Mr. John Alan Spence, son of Mrs. E. Spence and the late Mr. Spence of Daspound, and Mary Lucille Young, daughter of Mr. and Mrs. Duncan Young of Cremona, were united in marriage in the Cremona United Church on Saturday afternoon, Feb. 15th, with Rev. A. Magee officiating.

Given in marriage by her father, the bride was beautiful in a full skirted lace and net over satin gown. She carried a white Bible with a corsage of red roses.

The bride was attended by her sister Sylvia, groomed in yellow sheer over net. Her wee brother, Verne, was ring bearer.

Mr. Bill Spence, brother of the groom, was best man. Messrs. George Rand, Donny Williamson and Norman Young were ushers.

The bride's mother wore an old rose lace over taffeta gown, with a yellow corsage and the mother of the groom wore a navy gown with pink corsage.

Shirley Penner was soloist and Myrtle Reid was pianist.

A reception for well over 100 people was held in the community hall. The bride's table was fringed by the wedding cake, baked by the groom's mother. Mrs. Spence has been hospitalized and was allowed out of the hospital for four hours to attend the wedding and reception.

Mr. Clarence Reid proposed the toast to the bride. The happy couple are honeymooning in the U.S. and will reside at Daspound on their return.

## SENATORS TANGLE : : :

A brilliant Senator somewhat given to over-indulgence, was getting the best of another Senator in a furious debate.

In anger, the abstemious Senator said, "At least I am in possession of all my faculties."

He got this devastating reply, "And what difference could that possibly make?"

## CHRISTIAN SCIENCE

The meaning for today of Christ Jesus' healing mission will be brought out at Christian Science services Sunday.

Keynoting the Lesson-Sermon entitled "Christ Jesus" is the Golden Text from John (18-37): "To this end was I born, and for this cause came I into the world, that I should bear witness unto the truth."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (131:26-19): "The mission of Jesus confirmed prophecy and explained the so-called miracles of olden time as natural demonstrations of the divine power, demonstrations which were not understood."

The following will be included in the Scriptural readings Matthew (4:24): "And his fame went throughout all Syria; and they brought unto him all sick people that were taken with diverse diseases and torments, and those which were possessed with devils, and those that had the palsy; and he healed them."

Agricultural Service Board

There is one 1080 bait station incorrectly listed in the list of bait stations given last week. This one should read N.W. 6-32-27-4, and not the N.W. of Sec. 17, same township and range.

From England comes word of a new form of 2,4-D and MCP. These new chemicals show a marked tolerance for alfalfa, sweet clover, red clover and alsike. Here-to-for these legumes showed practically no tolerance towards systematic weed killers.

The new materials are known as MCPB and 2,4-DB (the B stands for butyric). They were tried last summer at Lacombe with promising results. It was possible to use up to 32 ounces acid per acre without damaging the legumes.

Stinkweed, ball mustard and hemp nettles were the main weeds in the crops sprayed. All were killed with MCPB. The legumes were in the seedling stage when sprayed. Effective control on Canada thistle and dandelion is also reported.

The tolerance of legumes to these new chemicals is striking. Alfalfa sprayed with 32 ounces of 2,4-DB looked better alfalfa sprayed with 4 ounces of the common form of MCP. Plots that were sprayed with 8 and 16 ounces acid per acre yielded from 300 to 800 more pounds per acre than unsprayed plots.

This material is manufactured in England. We don't have quotations as yet on price but it should be available for use in this country in limited quantity before long.

## DISTRICT NEWS

## M.V.B.C. NEWS

(From Our Own Correspondent)

The A Capella choir is very busy these days, touring from one place to the other on Friday nights and weekends. Last Saturday evening they were in the Jubilee auditorium in Calgary, along with three other college choirs from the province. There was a capably crowd as people from outside the city helped to swell the crowd for the great Youth For Christ Choir Festival. The numbers were well received; especially interesting was the mass choir numbers at the conclusion when each of the four choir directors presented their individual selections and conducted them with all four choirs participating. Rev. Tom Allen spoke briefly at this service as well.

On Friday evening the choir put on a concert in Sundre.

Mrs. L. Suder and Miss Eby were Saturday evening dinner guests in the home of Miss Mary Walsh, who is now assistant pastor in the First Nazarene Church, Calgary. Miss Walsh was dear of women in the college several years ago.

Miss Eby entertained Miss Sherrill and Master Keith Taylor for lunch Sunday evening while their parents went to take part in the choir program in Calgary at the Alliance Church. Mrs. Harold Bjorson of Prince Albert was also a guest that evening. The latter was the former Alma Hogg, a graduate of the college, who was called here because of the illness of her father.

Mrs. Kasey, Mr. Carpenter and Miss Eby were dinner guests in the home of Rev. and Mrs. W. D. Annett Sunday afternoon.

On Tuesday evening the Junior class of the college were guests in the home of Mr. and Mrs. Emerson Shantz. A lovely dinner was served and games enjoyed during the evening. It was also the occasion of Miss Shultz's birthday. From among the faculty, the two deans, Mr. Waldin and Mrs. Kasey were invited, in addition to Miss Eby, who is advisor to the Junior class this year.

On Wednesday evening the faculty and college students held a farewell party for Mr. Carpenter, who is leaving next week to be incorporated into the American army for military service. We regret greatly that this could not be postponed but Uncle Sam didn't see fit to do so although every possible avenue of approach was investigated by the leaders of our church to have this done. Mr. Carpenter was presented with gifts from both faculty and students.

FIGHT YOUR WAY  
WITH BIBLE STUDY

"Who is this Son of Man?" The title by which Jesus most frequently designates Himself is "the Son of Man". We find the Christ referred this title to the many of the glorious honors that were His. In 78 passages He calls Himself, not King of Kings, or Lord of Lords, but "the Son of Man".

The popular opinion of Jesus has not changed radically since He asked His disciples: "Whom do men say that I, the Son of Man, am?" In that day, some held Him to be John the Baptist, some thought Him to be Elijah, others regarded Him as Jeremiah, others took Him for some other great prophet. They regarded Him as a man — an ordinary man — an exemplary man — but a man among men.

It becomes the sacred duty of every follower of Christ to tell a curious, questioning world, which today still regards Jesus to be just a man — a great and impressive personage — but, after all, only a man among men, in no uncertain terms who the Son of Man is. And what better answer can we find than in Peter's inspired response: "Thou art the Christ, the Son of the living God!" In acknowledging Jesus as both Son of God and Son of Man we find the unassailable conviction which in the darkest hours and most anxious moments of life enables us to look to Him for guidance and help, to Him who now sits at the right hand of the father, to Him who is the Author of life, and the Victor over death.

On one occasion Robert G. Ingersoll, the agnostic lecturer of the last century, was announced to give a lecture on hell. He declared he would prove conclusively that hell was a wild dream of some scheming theologians who invented it to terrify credulous people. As he was laughing into his subject, a half-drunken man arose in the audience and explained: "Make it strong, Bob. There's a lot of us poor fellows depending on you. If you are wrong, we are all lost. So be sure you prove it clear and plain."

This is the Son of Man, Jesus, who died that you and I and the whole world might escape the clutches and terrors of hell. He is our rescue from eternal death.

NOTHING BUT SILENCE . . .

Mother: "What did your father say when you smashed the new car?"

Son: "Should I leave out the swear words?"

Mother: "Yes, of course!"

Son: "He didn't say a word."

## Obituary

Harry H. Hawthorne, aged 70, and a long-time pioneer of Alberta passed away at his home in Olds recently after a lingering illness. He was born at Ingersoll, Ont., in 1887. He moved to Post Falls, Idaho at the age of 13 and came to Olds in 1906. He married Elsie Grace Bliss in 1908 and moved to the Victor district where he homesteaded in 1908. He lived there until 1943 when he moved back to Olds and operated a milk and chicken ranch until 1954, when he retired.

In 1907 he was secretary of the Hainesburg Sunday school. He was an inventor at heart. He invented a stooker for stooking wheat and oats and also a grain picker. In 1928 he invented an automatic gate which any wheeled vehicle could open without the operator having to open it by hand. His latest invention was an anti-switch for cow's tails, to be used while milking. There are many of these in the Olds and Delta districts at present.

In the early days he freighted for the Victor district, a distance of 50 miles from Stettler. The nearest post office was at Gopher Head, 25 miles away.

He leaves to survive him, his wife, Elsie Grace Hawthorne; one daughter, Mrs. Mildred Blore of Didsbury; two sons, Lloyd of Byemore and Wesley of Olds; five grandchildren, one sister and one brother.
